DETAILS

Evolve Solar Teardrops Ltd. is expanding its business by expanding a rental division, and they require a dedicated website to showcase their offerings. The goal of this project is to design and develop a user-friendly, visually appealing website using Webflow. This website will serve as a platform for potential customers to explore rental options, view product details, view available dates, and place bookings. The project will involve creating a cohesive design that aligns with the company's branding, ensuring the website is responsive and accessible across various devices. The team will also need to integrate essential features such as a contact form, product gallery, and rental booking information. By completing this project, learners will apply their web design and development skills, gaining practical experience in using Webflow to create a professional-grade website.

- Understand the client's branding and requirements for the rental division.
- Design a user-friendly interface that highlights rental options.
- Develop the website using Webflow, ensuring responsiveness and accessibility.
- Integrate key features like a contact form, product gallery, and booking information.

DELIVERABLES

The project deliverables include a fully functional website for Evolve Solar Teardrops' rental division, developed using Webflow. The website should be responsive, visually appealing, and align with the company's branding. Key deliverables include:

- A complete website design and layout.
- Integration of a contact form and product gallery.
- Implementation of rental booking information.
- A final presentation demonstrating the website's features and usability.

MENTORSHIP

Domain expertise and knowledge

Providing specialized knowledge in the project subject area, with industry context.

Tools and/or resources

Providing access to necessary tools, software, and resources required for project completion.

Regular meetings

Scheduled check-ins to discuss progress, address challenges, and provide feedback.

_ARROW Manufacturing, Travel & tourism

Evolve Solar Teardrops Ltd. designs and builds bespoke, solar-powered teardrop campers tailored to each individual customer. Every trailer is custom-crafted to match the owner's lifestyle, travel goals, and energy needs. By integrating renewable solar systems directly into our designs, we create lightweight, off-grid-ready campers that combine sustainability, craftsmanship, and intentional living.

We don't mass-produce units — we build personalized adventure spaces that help people reconnect with nature, their loved ones, and themselves.

Our Mission

Our mission is to help people reclaim their most valuable asset: time.

Through thoughtfully designed, solar-powered trailers, we create opportunities for families and friends to disconnect from routine, step away from digital distractions, and experience meaningful moments together. We believe adventure should be sustainable, personal, and purposeful — and every trailer we build reflects that philosophy.

Opportunities for Remote Learners

Evolve Solar Teardrops offers flexible, project-based opportunities for remote students in areas such as:

Marketing & Brand Development

Social Media & Content Creation

Digital Advertising (Google Ads & SEO)

Graphic Design & Visual Storytelling

Business Development & Market Research

Product Documentation & Technical Writing

Sustainability Research & Renewable Energy Analysis

Remote learners gain:

Real-world experience in a growing outdoor and renewable energy industry

Portfolio-building projects

Direct collaboration with leadership

Exposure to premium product positioning and bespoke manufacturing

The opportunity to contribute to a purpose-driven brand

At Evolve Solar Teardrops Ltd., you won't just gain experience — you'll help build products that give people back time, connection, and meaningful adventure.

Complete the project to:

- Receive shareable feedback
- Receive digital certificate
- Get skills added to your portfolio
- Add the project to your resume
- And more!
